SAFETY DATA SHEET

5in1 petrol injection cleaner

SECTION 1: Identification of the substance/mixture and of the company/undertaking 1.1. Product identifier ▼ Handelsnaam 5in1 petrol injection cleaner Product no. 687001 Unique formula identifier (UFI) 03NC-WYN4-010V-SV36 1.2. Relevant identified uses of the substance or mixture and uses advised against Relevant identified uses of the substance or mixture Additive Use descriptors (REACH) **Product category** Description Additives to petrol or diesel fuel ▼ Uses advised against None known. 1.3. Details of the supplier of the safety data sheet Company and address **Maumo International BV** P.O. Box 441 12990 AK Barendrecht Niederlande +31 (0)180 699234 +31 (0)180699235 www.maumo.nl Contact person Product Safety Department E-mail info@maumo.nl Revision 06/12/2022 SDS Version 2.0 Date of previous version 09/09/2022 (1.0) 1.4. Emergency telephone number Contact The National Poisons Information Service (dial 111, 24 h service). See section 4 "First aid measures". SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Asp. Tox. 1; H304, May be fatal if swallowed and enters airways. Aquatic Chronic 3; H412, Harmful to aquatic life with long lasting effects.

2.2. Label elements

Hazard pictogram(s)

```
Signal word
     Danger
  Hazard statement(s)
     May be fatal if swallowed and enters airways. (H304)
     Harmful to aquatic life with long lasting effects. (H412)
  Safety statement(s)
     General
       Keep out of reach of children. (P102)
     Prevention
       Avoid release to the environment. (P273)
     Response
       IF SWALLOWED: Immediately call a POISON CENTER/doctor. (P301+P310)
       Do NOT induce vomiting. (P331)
     Storage
      ▼ Disposal
       Dispose of contents/container in accordance with local regulation
       . (P501)
  Hazardous substances
     Hydrocarbons, C10-C13, n-alkanes, isoalkanes, cyclics, <2% aromatics
     Hydrocarbons, C10, aromatics, > 1% naphthalene
   Additional labelling
    EUH066, Repeated exposure may cause skin dryness or cracking.
    UFI: 03NC-WYN4-010V-SV36
2.3. Other hazards
  Additional warnings
```

This mixture/product does not contain any substances considered to meet the criteria classifying them as PBT and/or vPvB.

This product does not contain any substances considered to be endocrine disruptors in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

SECTION 3: Composition/information on ingredients

See full text of H-phrases in section 16. Occupational exposure limits are listed in section 8, if these are available.

Other information

[1] European occupational exposure limit.

SECTION 4: First aid measures

4.1. Description of first aid measures

General information

In the case of accident: Contact a doctor or casualty department – take the label or this safety data sheet. Contact a doctor if in doubt about the injured person's condition or if the symptoms persist. Never give an unconscious person water or other drink.

Inhalation

Upon breathing difficulties or irritation of the respiratory tract: Bring the person into fresh air and stay with him/her.

Skin contact

Remove contaminated clothing and shoes immediately. Ensure to wash exposed skin thoroughly with water and soap. Skin cleanser can be used. DO NOT use solvents or thinners. If skin irritation occurs: Get medical advice/attention.

Eye contact

Upon irritation of the eye: Remove contact lenses and open eyes widely. Flush eyes with water or saline water(20-30°C) for at least 5 minutes. Seek medical assistance and continue flushing during transport.

Ingestion

IF SWALLOWED: Immediately call a POISON CENTER/doctor.

Do not induce vomiting! If vomiting occurs, keep head facing down so that vomit does not get into the lungs. Call a doctor or ambulance. Symptoms of chemical pneumonia can appear after several hours. People who have swallowed the product should therefore be kept under medical attention for at least 48 hours.

Burns

Not applicable.

4.2. Most important symptoms and effects, both acute and delayed

Headache, Methaemoglobinaemia (naphthalene)

This product contains substances that can cause chemical pneumonia if swallowed. Symptoms of chemical pneumonia may appear after several hours.

4.3. Indication of any immediate medical attention and special treatment needed

IF exposed or concerned:

Get immediate medical advice/attention.

Information to medics

Bring this safety data sheet or the label from this product.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media: Alcohol-resistant foam, carbon dioxide, powder, water mist. Unsuitable extinguishing media: Waterjets should not be used, since they can spread the fire.

5.2. Special hazards arising from the substance or mixture

Fire will result in dense smoke. Exposure to combustion products may harm your health. Closed containers, which are exposed to fire, should be cooled with water. Do not allow fire-extinguishing water to enter the sewage system and nearby surface waters.

If the product is exposed to high temperatures, e.g. in the event of fire, dangerous decomposition compounds are produced. These are:

Carbon oxides (CO / CO2)

5.3. Advice for firefighters

Wear self-contained breathing apparatus and protective clothing to prevent contact. Upon direct exposure contact The National Poisons Information Service (dial 111, 24 h service) in order to obtain further advice.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures Avoid direct contact with spilled substances.

6.2. Environmental precautions

Avoid discharge to lakes, streams, sewers, etc. In the event of leakage to the surroundings, contact local environmental authorities.

6.3. Methods and material for containment and cleaning up

Use sand, earth, vermiculite, diatomaceous earth to contain and collect non-combustible absorbent materials and place in container for disposal, according to local regulations.

Wherever possible cleaning should be performed with normal cleaning agents. Avoid use of solvents.

6.4. Reference to other sections

See section 13 "Disposal considerations" on handling of waste.

See section 8 "Exposure controls/personal protection" for protective measures.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

It is recommended to install waste collection trays in order to prevent emissions to the waste water system and surrounding environment.

Avoid direct contact with the product.

Smoking, drinking and consumption of food is not allowed in the work area.

See section 8 "Exposure controls/personal protection" for information on personal protection.

7.2. Conditions for safe storage, including any incompatibilities

Containers that have been opened must be carefully resealed and kept upright to prevent leakage.

Recommended storage material

Keep only in original packaging.

Storage temperature

Dry, cool and well ventilated

Store out of direct sunlight.

Incompatible materials

Strong acids, strong bases, strong oxidizing agents, and strong reducing agents.

7.3. Specific end use(s)

This product should only be used for applications quoted in section 1.2

SECTION 8: Exposure controls/personal protection

8.1. ▼ Control parameters

Hydrocarbons, C10-C13, n-alkanes, isoalkanes, cyclics, <2% aromatics Long term exposure limit (8 hours) (ppm): 184 Long term exposure limit (8 hours) (mg/m³): 1200

1,2,4-trimethylbenzene naphthalene mesitylene;1,3,5-trimethylbenzene 2-ethylhexan-1-ol Long term exposure limit (8 hours) (ppm): 1 Long term exposure limit (8 hours) (mg/m³): 5,4

propylbenzene;cumene Long term exposure limit (8 hours) (ppm): 25 Long term exposure limit (8 hours) (mg/m³): 125 Short term exposure limit (15 minutes) (ppm): 50 Short term exposure limit (15 minutes) (mg/m³): 250 Annotations: Sk = Can be absorbed through the skin and lead to systemic toxicity.

8.2. Exposure controls

nanhthalene

Compliance with the given occupational exposure limits values should be controlled on a regular basis. General recommendations

Smoking, drinking and consumption of food is not allowed in the work area.

Exposure scenarios

There are no exposure scenarios implemented for this product.

Exposure limits

Professional users are subjected to the legally set maximum concentrations for occupational exposure. See occupational hygiene limit values above.

Appropriate technical measures

The formation of vapours must be kept at a minimum and below current limit values (see above). Installation of a local exhaust system if normal air flow in the work room is not sufficient is recommended. Ensure emergency eyewash and -showers are clearly marked.

Hygiene measures

In between use of the product and at the end of the working day all exposed areas of the body must be washed thoroughly. Always wash hands, forearms and face.

Measures to avoid environmental exposure

Keep damming materials near the workplace. If possible, collect spillage during work.

8.3. Individual protection measures, such as personal protective equipment

2.4. Mobility in soil No data available.					
2.5. Results of PBT and	d vPvB assessme	nt			
This mixture/produc vPvB.	t does not contai	in any substances	considered to r	neet the criteria classifyi	ng them as PBT and/or
2.6. ▼Endocrine disru None known.	pting properties				
2.7. Other adverse eff	ects				
This product contain		it are toxic to the e	nvironment. M	ay result in adverse effec	cts to aquatic
organisms.					
This product contain	s substances, wh	hich may cause adv	erse long-term	n effects to the aquatic er	nvironment.
SECTION 13: Disposal	considerations				
Naste treatment metho					
Product is covered b HP 14 – Ecotoxic	y the regulations	s on hazardous wa	ste.		
Dispose of contents/	container to an a	approved waste dis	sposal plant.		
				ned and amended in UK l	aw.
EWC code					
Not applicable.					
Specific labelling Not applicable.					
Contaminated packing					
	g residues of the	product must be o	disposed of sim	ilarly to the product.

EU Hi Hi	JH066, Repea 226, Flammab 228, Flammab 302, Harmful i		e skin dryness or c	racking.		

- H315, Causes skin irritation.
- H319, Causes serious eye irritation.
- H332, Harmful if inhaled.
- H335, May cause respiratory irritation.
- H336, May cause drowsiness or dizziness.
- H351, Suspected of causing cancer.
- H400, Very toxic to aquatic life.
- H410, Very toxic to aquatic life with long lasting effects.

H411, Toxic to aquatic life with long lasting effects.

The full text of identified uses as mentioned in section 1

= Additives to petrol or diesel fuel

Abbreviations and acronyms

ADN = European Provisions concerning the International Carriage of Dangerous Goods by Inland Waterway

ADR = The European Agreement concerning the International Carriage of Dangerous Goods by Road

ATE = Acute Toxicity Estimate **BCF** = Bioconcentration Factor CAS = Chemical Abstracts Service CE = Conformité Européenne CLP = Classification, Labelling and Packaging Regulation [Regulation (EC) No. 1272/2008] CSA = Chemical Safety Assessment CSR = Chemical Safety Report DMEL = Derived Minimal Effect Level DNEL = Derived No Effect Level EINECS = European Inventory of Existing Commercial chemical Substances ES = Exposure Scenario EUH statement = CLP-specific Hazard statement EWC = European Waste Catalogue GHS = Globally Harmonized System of Classification and Labelling of Chemicals IARC = International Agency for Research on Cancer (IARC) IATA = International Air Transport Association IBC = Intermediate Bulk Container IMDG = International Maritime Dangerous Goods LogPow = logarithm of the octanol/water partition coefficient MARPOL = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution) OECD = Organisation for Economic Co-operation and Development PBT = Persistent, Bioaccumulative and Toxic PNEC = Predicted No Effect Concentration RID = The Regulations concerning the International Carriage of Dangerous Goods by Rail RRN = REACH Registration Number SCL = A specific concentration limit SVHC = Substances of Verv High Concern STOT-RE = Specific Target Organ Toxicity - Repeated Exposure STOT-SE = Specific Target Organ Toxicity - Single Exposure TWA = Time weighted average UN = United Nations UVBC = Unknown or variable composition, complex reaction products or of biological materials VOC = Volatile Organic Compound vPvB = Very Persistent and Very Bioaccumulative Additional information The classification of the substance/mixture in regard of health hazards are in accordance with the calculation methods given by Regulation (EC) No. 1272/2008 (CLP) as retained and amended in UK law. The classification of the substance/mixture in regard of environmental hazards are in accordance with the calculation methods given by Regulation (EC) No. 1272/2008 (CLP) as retained and amended in UK law. The safety data sheet is validated by Maumo

Other

A change (in proportion to the last essential change (first cipher in SDS version, see section 1)) is marked with a blue triangle.

The information in this safety data sheet applies only to this specific product (mentioned in section 1) and is not necessarily correct for use with other chemicals/products.

It is recommended to hand over this safety data sheet to the actual user of the product. Information in this safety data sheet cannot be used as a product specification.
